Syed Ashar Iqbal, Deputy General Manager**, Karachi Electric Supply Company**

With a Masters in Business Administration and technical international certifications like CISSP, LA BS25999 and ITIL V3 Foundation, Syed Ashar Iqbal is working in the field of IT Governance. He set up the information security department in KESC, which is now part of the IT Governance team. The privatization and ongoing turn-around of the company has forced an accelerated evolution and transformation of IT, in which the security and governance functions played a key role. Prior to KESC he worked as the CTO of a network security vendor in Karachi. Here is an expert in developing / deploying hardware appliance firewalls based on FreeBSD.
