Fabio Brocatelli, Scientist, **Genentech, Inc.**
Dr. Fabio Broccatelli received his PhD in Computational Chemistry from University of Perugia. His doctoral work was a collaboration between UPG (Cruciani's lab) and UCSF (Benet's lab) focusing on drug transporters, metabolizing enzymes and their interplay with biopharmaceutical properties. Prior to joining Genentech as a DMPK Scientist, he was a Postdoctoral Fellow at the Institute of Cancer Research London, where he worked as computational chemist in drug discovery projects. Dr. Broccatelli was awarded with the 2013 AAPS Manuscript Award, authored 13 amongst book chapters and articles in peer-reviewed scientific journals; he serves as a reviewer for over 10 scientific journals.
